	• Definitions of town and country planning, Orthodoxies of Planning, sustainability and rationality in planning, components of sustainable urban and regional development	
	• Theories of urbanization including Concentric Zone Theory, Sector Theory, Multiple Nuclei Theory, and other latest theories	
	• City as organism: physical, social, economic, and political entity	
	• Emerging Concepts: Global City, inclusive city, Safe city etc. City of the future, future of the city; shadow cities, divided cities; Models of planning Advocacy, and Pluralism in Planning: Systems approach to planning: rationalistic and incremental approaches, mixed scanning and middle range planning, advocacy planning and action planning, equity planning	

b	Planning Techniques	25 Marks
	Data Base for Physical surveys (including land use/building use/density/building age etc.) and Socio-economic surveys; Survey techniques, etc.; Land use classification	
	Techniques of preparing base maps - concepts of scales, components and detailing for various levels of plans (regional, city, zone, local area plans)	
	Spatial standards, performance standards and benchmarks, and variable standards. UDPFI guidelines, zoning regulations and development controls	
c	Planning Process	25 Marks
	Goals, objectives, goal formulation	
	Master Plan, Development plan, structure plans, local plans, district plans, sector plans, local area plans, and regional plans, Side plan, public participation	
	Social research techniques: - social survey land use survey, physical survey, building use, density, age of building. Application aerial/remote sensing/GIS, national policies affecting urban settlement planning	

d	Transport Planning	100 marks
	Role of transport, types of transport systems, evolution of transport modes, transport problems and mobility issues	
	Urban form and Transport patterns, land use transport cycle, concept of accessibility	
	Hierarchy, capacity and geometric design elements of roads and intersections	
	Basic principles of Transport infrastructure design	
	Traffic and transportation surveys and studies, traffic and travel characteristics	
	Urban transport planning process-stages, study area, zoning, data base, concept of trip generation	
	Mobility planning	
	Transport, environment, and safety issues	
	Principles and approaches of Traffic Management, Transport System Management	

	TECHNICAL PAPER II (MCQ)	200 MARKS
a	Housing and Community Planning	100 Marks
	Housing as social security, role of housing in development of family and community wellbeing, status and prestige related to housing, safety, crime and insecurity, deprivation and social vulnerability, ghettoism, gender issues, housing and the elderly	
	Contribution of housing to micro and macro economy, contribution to national wealth and GDP, housing taxation, national budgets, fiscal concessions, forward and backward linkages	
	Understanding housing as an important land use component of city plan/master plan, considerations for carrying out city level, housing studies, projections, land use provisions	
	Suitability of land for housing stress identification, projecting housing requirements, calculating housing shortages, housing allocation	
	Approaches to neighborhood living in traditional and contemporary societies, elements of neighborhood structure, Planning and design criteria for modern neighborhoods, norms and criteria for area distribution, housing and area planning standards net residential density and gross residential density, development controls and building byelaws, UDPFI guidelines, NBC 2005 provisions	
	Case studies of neighborhood planning	

b	Environmental Planning	100 Marks
	• UN/International Conferences/Conventions (Global/National issues)	
	• Environmental Concerns of human settlements	
	• Components, structure and meaning of the urban and regional environment	
	• Environmental surveys-Methods of data collection, interview environment. techniques, analysis	
	• Database for incorporation of environmental concerns in planning analysis	
	• Techniques of resource protection and conservation (land suitability analysis, carrying capacity, and vulnerability analysis)	
	• Resources type, scale, inventory	
	• Resource Assessment- Land – Topographic analysis Water – Quality Standards Air and Noise – Quality standards basics of floral and fauna diversity assessment	
	• Methods of addressing environmental quality	
	• Environmental Impact Assessment - an introduction	
	• EIA notification as related to human settlement planning	
	TECHNICAL PAPER III (MCQ)	200 MARKS
a	Planning for infrastructure	100 Marks
	• Data requirements for programme planning of urban network and services; feasibility planning studies and structuring the infrastructure systems planning water supply; Resource analysis, quality of water, system design; technological choices and alternatives. Issues related to the choice of centralized city water supply versus decentralized systems	
	• Waste generation processes in cities. Waste water disposal system including storm water drainage system, system designs, nodal facilities, technological and environmental considerations	
	• Solid waste disposal; and management, Resource recovery technology options and determinants of type choice of systems as related to land use density, economy levels and location of urban industrial and commercial activity areas. Planning for fire protection, services, and space standards, fire fighting, renewable energy sources	

b	Socio-economic Base for Planning	
	Nature and scope of sociology sociological concepts and methods-man & environment socio-cultural profile of Indian society, community and settlements, urban sociology-tradition and modernity-social problems of slums and housing-social planning and policy-public participation-poverty in India-social and spatial structure-safety, security, and spatial Planning	50 Marks
	Basics of economics economic and human settlements- concepts of economic and economic growth-demand and supply-production economic-markets, pricing of public utilities and economic infrastructure-economics of location and planning-internal and external economics and urban and regional growth-economic and its application In physical planning	
	Population studies demography; concepts and definitions-population growth-population problem in India-source of demographic data in India-analysis of demographic data and spatial planning-migration and urban growth-migration and its implication in spatial planning-methods of population forecasts and projections	
c	Project Planning and management	
	Introduction to project, Nature of Planning project, Project cycle, Identification of Project	25 Marks
	Project formulation and appraisal	
	Project management, Implementation, monitoring and evaluation	
d	Legal issues and Professional practice	
	Concepts, sources, terminologies, significance of law and its relationship to Urban Planning. Indian Constitution: concept and contents; 73rd and 74th Constitution Amendment Act	25 Marks
