

Syllabus for Informatics Officer Examination, 2018 under Information & Communication Technology Department

SUBJECTS

1. General English Paper- I 100 Marks
 2. General English Paper- II (*Objective Type*) 100 Marks
 3. Technical Paper- I (*Objective Type*) 200 Marks
 4. Technical Paper- II (*Objective Type*) 200 Marks
 5. Technical Paper - III (*Objective Type*) 200 Marks
- (A) *Technical* 150 Marks
(B) *Aptitude Test*.. 50 Marks

General English Paper - I (3 hours duration)

ESSAY TYPE

(Full Marks : 100)

- (a) Essay Writing 25 Marks
- (b) Précis Writing 15 Marks
- (c) Letter Writing 15 Marks
- (d) Idioms & Phrases 14 Marks
- (e) Expansion of passages 15 Marks
- (f) Comprehension of given passages 16 Marks

General English Paper - II (2 hours duration)

OBJECTIVE TYPE (MCQ)

(Full Marks : 100)

- (a) Grammar : 40 Marks
Parts of Speech, Nouns, Adjective, Verb, Adverb, Preposition, etc.
- (b) Composition 30 Marks
 - i) *Analysis of complex and compound sentences*
 - ii) *Transformation of sentences*
 - iii) *Synthesis of sentences*
- (c) Correct usage and vocabularies 30 Marks

Technical Paper - I (200)
(Information Technology and Communication)

1. Hardware & Networking Technologies (40 Marks)

- 1.1. Basic Computer System
- 1.2. Basic Networking
- 1.3. Network Devices - Switches, Router, Firewall, etc.
- 1.4. TCP/IP
- 1.5. IOS and Security Device Manager
- 1.6. IP Routing
- 1.7. Spanning Tree Protocol
- 1.8. Security
- 1.9. Wireless Technologies
- 1.10. Wide Area Networks
- 1.11. Internetworking
- 1.12. Sub-netting
- 1.13. Managing a Cisco Internetwork
- 1.14. EIGRP and OSPF
- 1.15. Virtual LANs
- 1.16. Network Address Translation
- 1.17. IPv6

2. Software Engineering (40 Marks)

- 2.1. Software Development Approach
 - Continuous Integration model
 - Iterative Development model
 - Incremental Development model
 - Prototyping model;
 - Rapid Application Development model
- 2.2. Software Development Life Cycle Methodologies
 - Waterfall model
 - Iterative model
 - Spiral model
 - V-shaped model
 - Agile model
- 2.3. Software Design Principles:
 - Introduction
 - System Models: Data-flow models, Semantic data models, Object models, Inheritance models, Object aggregation, Service usage models, Data Dictionaries

- Software Design: The design process, Design Methods, Design description, Design strategies, Design quality
- Architectural Design: System structuring, The repository model, The client-server model, The abstract machine model, Control models, Modular decomposition, Domain-specific architectures

2.4. Object Oriented Analysis and Design

- Overview of Object Oriented Systems Development:
- Object Oriented Systems Development Life Cycle:
- Object Oriented Methodologies:
- Unified Modelling Languages (UML)
- Object Oriented Analysis - Identifying Use-Cases:
- Object Analysis: Classification:
- Object Oriented Analysis - Identifying Relationships, Attributes, and Methods:
- Object Oriented Design Process and Design Axioms:
- Designing Classes:
- Access Layer:
- View Layer:

2.5. Agile Software Development

- Lifecycle
- Methods
- Adaptive Software Development (ASD)
- Dynamic System Development Method (DSDM)
- SCRUM
- Extreme Programming (XP)

2.6. Configuration Management:

- Introduction;
- Change Management;
- Version and Release Management: Version identification, Release management, Version management tools;
- Software Maintenance;
- The maintenance process, System documentation, Maintenance costs, Maintainability measurement;
- Software Reengineering;
- Software Refactoring,

3. **.NET Technologies (30 Marks)**

- 3.1. Basic .NET Framework
- 3.2. Object-Oriented Programming
- 3.3. ADO.NET
- 3.4. Dynamic Programming
- 3.5. ASP.NET

- 3.6. Windows Workflow Foundation
- 3.7. Application Deployment
- 3.8. Remoting, Web Services and WCF
- 3.9. .NET Programming Concepts
- 3.10. Windows Controls
- 3.11. Language-Integrated Query (LINQ)
- 3.12. XML
- 3.13. Web Services
- 3.14. ASP.NET AJAX
- 3.15. .NET Assemblies
- 3.16. WPF and Silverlight
- 3.17. LINQ and Entity Framework
- 3.18. Design Pattern and UML
- 3.19. Ajax
- 3.20. Reports
- 3.21. Threading
- 3.22. .NET Interoperability
4. **Java / J2EE (30 Marks)**
 - 4.1. OOPS and Core Java
 - 4.2. Threading
 - 4.3. JDBC
 - 4.4. Servlet and JSP
 - 4.5. EJB - Enterprise Java Beans
 - 4.6. Struts
 - 4.7. XML and Web Services
 - 4.8. Internationalization
 - 4.9. JNI - Java Native Interface
5. **Database Management System (30 Marks)**
 - 5.1. Introduction to Database
 - 5.2. The Relational Model and Normalization
 - 5.3. Data Modeling with ER Model
 - 5.4. SQL for Database Construction
 - 5.5. Managing Multiuser Databases
 - 5.6. XML and ADO.NET
 - 5.7. Database Processing for BIS
 - 5.8. The Database Development Process
 - 5.9. ER Model and Business Rules
 - 5.10. Physical Database Design
 - 5.11. The Client-Server Database

- 5.12. Data Warehousing
- 5.13. Distributed Databases
- 5.14. Object-Oriented Database
- 5.15. Introduction to SQL
- 5.16. Database Design Using Normalization
- 5.17. Data Models into Database Designs
- 5.18. Database Redesign
- 5.19. Managing Databases
- 5.20. ODBC, OLE DB, ADO, and ASP
- 5.21. JDBC, Java Server Pages, and MySQL
- 5.22. The Database Environment
- 5.23. Modeling Data in the Organization
- 5.24. Logical Database Design
- 5.25. Advanced SQL
- 5.26. The Internet Database Environment
- 5.27. Data and Database Administration
- 5.28. Object-Oriented Data Modeling

6. **Software Testing (30 Marks)**

6.1. Software Testing Techniques:

- Introduction;
- Software Testing Fundamental;
- Testing Principles;
- White Box Testing;
- Control Structure Testing;
- Black Box Testing;
- Boundary Value Analysis;
- Testing GUIs;
- Testing Documentation and Help Facilities.

6.2. Software Testing Assurance:

- Introduction;
- Verification and Validation: Validation Testing, Validation Test Criteria;
- Test Plan: Test Documentation;
- Test Strategies: Top-Down Testing, Bottom-Up Testing, Thread testing, Stress testing, Back-to-back testing;
- Principles of Testing;
- Testing methods and tools: Testing through reviews, Black-box testing (Functional testing), White box testing (glass-box testing), Testing software changes;
- Additional requirements in testing OO Systems;
- System Testing;

- Acceptance Testing;
- Regression testing;
- Metrics Collection, Computation, and Evaluation;
- Test and QA plan;
- Managing Testing Functions.

6.3. Software Testing Strategies:

- Introduction;
- Organizing for software testing;
- Software Testing Strategy;
- Unit Testing: Unit Test Considerations;
- Top-down Integration;
- Bottom-up Integration.

6.4. Six Sigma

6.5. Automated Testing

6.6. CMMI

6.7. Metrics

6.8. Testing Estimation

Technical Paper – II (200)

(E-GOVERNANCE)

1 Understanding Government and Governance (10 Marks)

- 1.1. Introduction to Government and Governance
- 1.2. Defining Good Governance
- 1.3. Service delivery, time taken to deliver service, cost of getting service, customer experience, complexity, transparency, etc.
- 1.4. Introduction to Governance – Self-preservation, supervision & resolution of conflicts, socio-economic development, regulation of the economy, provision of goods and services, etc.
- 1.5. Citizen Centric Administration
- 1.6. Perception about Governance in India
- 1.7. Necessary pre-conditions for Good Governance
- 1.8. Need for Governance Reform and Citizen Charter – Basic concept, origin and principles; problems faced in implementing the charters; Charter criteria; rationale of Citizen's charter; Designing and implementing effective complaints handling systems; etc.

2 E-Governance Project Development (15 Marks)

- 2.1. Introduction to e-Government and e-Governance
- 2.2. Challenges in current environment
- 2.3. Some key factors contributing to current environment
- 2.4. Need for a more robust approach for E-Governance
- 2.5. Essential elements of E-Governance Project
- 2.6. E-Governance project life cycle
- 2.7. E-Governance strategy development
- 2.8. Current state assessment
- 2.9. Define future state (to-be definition)
- 2.10. Implementation approach and sourcing
- 2.11. Develop and implement IT system
- 2.12. Operate and sustain
- 2.13. Project management office/unit
- 2.14. Change management and communication

3 e-Governance vision & Strategy development (10 Marks)

- 3.1. Understanding e-Governance strategy
- 3.2. Key elements in e-Governance strategy
- 3.3. e-Governance vision
- 3.4. e-Governance objectives
- 3.5. Identifying stakeholders and services
- 3.6. Categories of Government services (G2C, G2B, G2E, G2G)

- 3.7. Delivery channel
- 3.8. Implementation approach and plan (Big bang, Phased rollout, Parallel adoption, Pilot and rollout)
- 3.9. Programme management framework

4 Government Process Re-engineering (GPR) (15 Marks)

- 4.1. Objectives
- 4.2. Service Prioritization
- 4.3. Benefit of service prioritization
- 4.4. E-Governance and traditional approach to e-Governance
- 4.5. Symptoms of Poor Governance
- 4.6. GPR and Quality initiatives

5 Procurement in E-Governance (10 Marks)

- 5.1. Objectives
- 5.2. Introduction to Government Procurement
- 5.3. Procurement in e-Governance projects
- 5.4. Deciding on procurement strategy
- 5.5. Planning the procurement
- 5.6. Request for proposal (RFP)
- 5.7. Some considerations for commercial bid formats
- 5.8. In case of PPP/transaction fee based model

6 Business Models and Public Private Partnership (PPP) (20 Marks)

- 6.1. Business Models for implementation of e-Governance
- 6.2. Costs in e-Governance projects
- 6.3. Revenue opportunities in e-Governance projects
- 6.4. Approach for development of Business Model
- 6.5. Net Present Value (NPV) and Internal Rate of Return (IRR)
- 6.6. Public Finance and Private Finance
- 6.7. Rationale for PPP
- 6.8. PPP benefit to Citizens
- 6.9. PPP benefit to Government
- 6.10. Benefits to Private sector partner
- 6.11. Key design principle for PPP
- 6.12. Role of various partners
- 6.13. Role of Government in PPP
- 6.14. Role of Private partner
- 6.15. Management Contract
- 6.16. ASP Model - Application Service Provider Model
- 6.17. A requirement to launch the services in a short time frame
- 6.18. BOOT - Build Own Operate and Transfer Model
- 6.19. BOO - Build Own Operate Model

- 6.20. JV Model
- 6.21. How to structure and implement PPP

7. Digital India (20 Marks)

- 7.1. Digital India = the Umbrella Programme
- 7.2. Key Vision Areas
- 7.3. Participation in digital & financial space through mobiles and Banking
- 7.4. Easy access to a Common Service Centre
- 7.5. Shareable private space on a public cloud
- 7.6. Safe and secure Cyber-space
- 7.7. Government and Service on demand
- 7.8. Seamlessly integrated across departments or jurisdictions
- 7.9. Service available in real time from online & mobile platform
- 7.10. All citizen entitlements to be available on the cloud
- 7.11. Digital transformed for improving Ease of Doing Business
- 7.12. Making financial transaction electronics and cashless
- 7.13. Leveraging GIS for decision support system & development
- 7.14. Digital empowerment of Citizen
- 7.15. Universal Digital Literacy
- 7.16. Universal Accessible Digital Resources
- 7.17. Nine pillars of Digital India
- 7.18. e-Governance related Policies
- 7.19. Digital Lockers and e-Sign

8 Data Digitization (5 Marks)

9 Enterprise Architecture and Service Oriented Architecture (5 Marks)

10. Information Security Management in e-Governance Projects (15 Marks)

- 10.1. Information Security Threats
- 10.2. Improving Information Security in e-Governance
- 10.3. Security Policy
- 10.4. Security Practices and procedures
- 10.5. Information Security Technology and Operational
- 10.6. Cryptography
- 10.7. Firewall
- 10.8. Analysis tools
- 10.9. Monitoring Tools
- 10.10. Information Security Assurance Framework
- 10.11. Selection of Baseline Security Controls
- 10.12. Security Attributes
- 10.13. Impact of Organization due to Breaches of Information Security
- 10.14. Impact on Individual due to Breaches of Information Security

- 10.15. Security Control organization and structure
- 10.16. Information Security Risk Management Process
- 10.17. Information Security Risk Treatment
- 11. IT Audit of E-Governance Projects (5 Marks)**
- 12. Understanding e-Governance Applications (10 Marks)**
 - 12.1. Key characteristics of E-Governance Applications development projects
 - 12.2. Investment needed in e-Governance Applications
 - 12.3. Understanding custom development vs COTS Models
 - 12.4. Understanding Licensing Models for Application and System Software
 - 12.5. Understanding Source Code Ownership and IPR
 - 12.6. Revenue general options in E-Governance Applications
 - 12.7. Strategic consideration in an e-Governance application
 - 12.8. Business model for e-Governance applications
- 13. Free and Open source Software (FOSS) (5 Marks)**
 - 13.1. Understanding Open Source
 - 13.2. Defining Open Source
 - 13.3. Typical concerns about open source software
 - 13.4. Open Source Software in E-Governance
- 14. Change Management and Capacity Building in e-Governance Projects (20 marks)**
 - 14.1. Introduction and Objectives of Management Change
 - 14.2. ADKAR Model for Change Management
 - 14.3. Key Principles for Change Management Design
 - 14.4. Organizational dimension of change
 - 14.5. People dimension of change
 - 14.6. Communication in change management
 - 14.7. Key reasons for failures in change initiatives
 - 14.8. Approach for change management
 - 14.9. Guiding principles for change planning
 - 14.10. General tools in change management
 - 14.11. Understanding scope of change in an e-Governance project
 - 14.12. Identify enablers and disablers to change
 - 14.13. Build a change champion network
 - 14.14. Role of a change champion
 - 14.15. Overview of approach for training in e-Governance projects
 - 14.16. Training needs Assessment
 - 14.17. Communications Management
- 15. Legal and Policy Framework for e-Governance Implementation (15 marks)**
 - 15.1. Legal aspect of e-Commerce and e-Governance
 - 15.2. Legal and regulatory framework in India

- 15.3. Recognition of electronic records
- 15.4. IT Act Amendments, 2008
- 15.5. Introduction to Digital Signature
- 15.6. PKI Based Digital Signature basics
- 15.7. PKI Infrastructure
- 15.8. Electronic Signatures – IT Act Amendments
- 15.9. Cyber Crime provisions in IT Act (section 43, 47, 65, 66, 67, 73)
- 15.10. Indian Penal code (Sec 503, 499, 500, 463, 470, 472, 420, 416, 417, 463, 383, 405, 406, 408, 409, 204, 477, 193, 167,172,173,175) & Indian Evidence Act
- 15.11. Intellectual Property related Laws (Copyrights Act 1957, Patents Act 1970, Trademark Act 1999)
- 15.12. Other legal Aspects
- 15.13. Regulatory Framework under NeGP
- 15.14. National Policy on Open Source
- 16. Preparation of Detailed Project Report (DPR) and Request for Proposal (RFP) (5 Marks)**
- 17. Contract Management Aspect (5 Marks)**
 - 17.1. Importance of contracts in E-Governance projects
 - 17.2. Key components of E-Governance Contracts
 - 17.3. Common terms of contract
 - 17.4. Project type specific aspect of contracts
 - Contract aspect of Software Development
 - Contract aspect of IT infrastructure projects
 - Contract aspect of PPP and Service delivery projects
 - 17.5. SLA and Service Level Management
- 18. Monitoring and Evaluation of e-Governance project (5 Marks)**
 - 18.1. Difference between outputs and outcomes
 - 18.2. Difference between Monitoring and Evaluation
 - 18.3. Understanding evaluation types
 - 18.4. Approach for Development of Monitoring and Evaluation Framework
- 19. Impact Assessment of e-Governance project (5 marks)**

Technical Paper - III (200)
(Project Management)

1 Introduction to Project Management (10 Marks)

- 1.1. What is Project and Project Management?
- 1.2. Relationships among portfolio management, program management, project management, and organizational project management
- 1.3. Role of project manager
- 1.4. Project management office/unit

2 Organizational Influences and Project Life Cycle (10 Marks)

- 2.1. Organization influences on Project Management
- 2.2. Project Stakeholder and Governance
- 2.3. Project Team
- 2.4. Project Life cycle

3 Project Management Processes (10 Marks)

- 3.1. Common Project Management Process Interactions
- 3.2. Project Management Process Groups
- 3.3. Initiating Process Group
- 3.4. Planning Process Group
- 3.5. Executing Process Group
- 3.6. Monitoring and Controlling Process Group
- 3.7. Closing Process Group
- 3.8. Project Information
- 3.9. Role of the Knowledge Areas

4 Project Integration Management (15 Marks)

- 4.1. Develop Project Charter
 - Develop Project Charter: Inputs
 - Develop Project Charter: Tools and Techniques
 - Develop Project Charter: Outputs
- 4.2. Development Project Management Plan
 - Development Project Management Plan: Inputs
 - Development Project Management Plan: Tools and Techniques
 - Development Project Management Plan: Outputs
- 4.3. Direct and Manage Project Work
 - Direct and Manage Project Work: Inputs
 - Direct and Manage Project Work: Tools and Techniques
 - Direct and Manage Project Work: Outputs
 - Monitor and Control Project Work
 - Monitor and Control Project Work: Inputs

- Monitor and Control Project Work: Tools and Techniques
 - Monitor and Control Project Work: Outputs
- 4.4. Perform Integrated Change Control
- Perform Integrated Change Control: Inputs
 - Perform Integrated Change Control: Tools and Techniques
 - Perform Integrated Change Control: Outputs
- 4.5. Close Project or Phase
- Close Project or Phase: Inputs
 - Close Project or Phase: Tools and Techniques
 - Close Project or Phase: Outputs

5 Project Scope Management (15 Marks)

- 5.1. Plan Scope Management
- Plan Scope Management: Inputs
 - Plan Scope Management: Tools and Techniques
 - Plan Scope Management: Outputs
- 5.2. Collect Requirements
- Collect Requirements: Inputs
 - Collect Requirements: Tools and Techniques
 - Collect Requirements: Outputs
- 5.3. Define Scope
- Define Scope: Inputs
 - Define Scope: Tools and Techniques
 - Define Scope: Outputs
- 5.4. Create WBS
- Create WBS: Inputs
 - Create WBS: Tools and Techniques
 - Create WBS: Outputs
- 5.5. Validate Scope
- Validate Scope: Inputs
 - Validate Scope: Tools and Techniques
 - Validate Scope: Outputs
- 5.6. Control Scope
- Control Scope: Inputs
 - Control Scope: Tools and Techniques
 - Control Scope: Outputs

6 Project Time Management (15 Marks)

- 6.1. Plan Schedule Management
- Plan Schedule Management: Inputs
 - Plan Schedule Management: Tools and Techniques

- Plan Schedule Management: Outputs
- 6.2. Define Activities
 - Define Activities: Inputs
 - Define Activities: Tools and Techniques
 - Define Activities: Outputs
- 6.3. Sequence Activities
 - Sequence Activities: Inputs
 - Sequence Activities: Tools and Techniques
 - Sequence Activities: Outputs
- 6.4. Estimate Activity Resources
 - Estimate Activity Resources: Inputs
 - Estimate Activity Resources: Tools and Techniques
 - Estimate Activity Resources: Outputs
- 6.5. Estimate Activity Durations
 - Estimate Activity Durations: Inputs
 - Estimate Activity Durations: Tools and Techniques
 - Estimate Activity Durations: Outputs
- 6.6. Develop Schedule
 - Develop Schedule: Inputs
 - Develop Schedule: Tools and Techniques
 - Develop Schedule: Outputs
- 6.7. Control Schedule
 - Control Schedule: Inputs
 - Control Schedule: Tools and Techniques
 - Control Schedule: Outputs

7. Project Cost Management (15 Marks)

- 7.1. Plan Cost Management
 - Plan Cost Management: Inputs
 - Plan Cost Management: Tools and Techniques
 - Plan Cost Management: Outputs
- 7.2. Estimate Costs
 - Estimate Costs: Inputs
 - Estimate Costs: Tools and Techniques
 - Estimate Costs: Outputs
- 7.3. Determine Budget
 - Determine Budget: Inputs
 - Determine Budget: Tools and Techniques
 - Determine Budget: Outputs
- 7.4. Control Costs

- Control Costs: Inputs
- Control Costs: Tools and Techniques
- Control Costs: Outputs

8 Project Quality Management (10 Marks)

8.1. Plan Quality Management

- Plan Quality Management: Inputs
- Plan Quality Management: Tools and Techniques
- Plan Quality Management: Outputs

8.2. Perform Quality Assurance

- Perform Quality Assurance: Inputs
- Perform Quality Assurance: Tools and Techniques
- Perform Quality Assurance: Outputs

8.3. Control Quality

- Control Quality: Inputs
- Control Quality: Tools and Techniques
- Control Quality: Outputs

9 Project Human Resource Management (10 Marks)

9.1. Plan Human Resource Management

- Plan Human Resource Management: Inputs
- Plan Human Resource Management: Tools and Techniques
- Plan Human Resource Management: Outputs

9.2. Acquire Project Team

- Acquire Project Team: Inputs
- Acquire Project Team: Tools and Techniques
- Acquire Project Team: Outputs
- Develop Project Scheme
- Develop Project Scheme: Inputs
- Develop Project Scheme: Tools and Techniques
- Develop Project Scheme: Outputs

9.3. Manage Project Team

- Manage Project Team: Inputs
- Manage Project Team: Tools and Techniques
- Manage Project Team: Outputs

10. Project Communications Management (10 Marks)

10.1. Plan Communications Management

- Plan Communications Management: Inputs
- Plan Communications Management: Tools and Techniques
- Plan Communications Management: Outputs

10.2. Manage Communications

- Manage Communications: Inputs
- Manage Communications: Tools and Techniques
- Manage Communications: Outputs

10.3. Control Communications

- Control Communications: Inputs
- Control Communications: Tools and Techniques
- Control Communications: Outputs

11. Project Risk Management (10 Marks)

11.1. Plan Risk Management

- Plan Risk Management: Inputs
- Plan Risk Management: Tools and Techniques
- Plan Risk Management: Outputs

11.2. Identify Risks

- Identify Risks: Inputs
- Identify Risks: Tools and Techniques
- Identify Risks: Outputs

11.3. Perform Qualitative Risk Analysis

- Perform Qualitative Risk Analysis: Inputs
- Perform Qualitative Risk Analysis: Tools and Techniques
- Perform Qualitative Risk Analysis: Outputs

11.4. Perform Quantitative Risk Analysis

- Perform Quantitative Risk Analysis: Inputs
- Perform Quantitative Risk Analysis: Tools and Techniques
- Perform Quantitative Risk Analysis: Outputs

11.5. Plan Risk Response

- Plan Risk Response: Inputs
- Plan Risk Response: Tools and Techniques
- Plan Risk Response: Outputs

11.6. Control Risks

- Control Risks: Inputs
- Control Risks: Tools and Techniques
- Control Risks: Outputs

12. Project Procurement Management (10 Marks)

12.1. Plan Procurement Management

- Plan Procurement Management: Inputs
- Plan Procurement Management: Tools and Techniques
- Plan Procurement Management: Outputs

12.2. Conduct Procurements

- Conduct Procurements: Inputs

- Conduct Procurements: Tools and Techniques
- Conduct Procurements: Outputs

12.3. Control Procurements

- Control Procurements: Inputs
- Control Procurements: Tools and Techniques
- Control Procurements: Outputs\

12.4. Close Procurement

- Close Procurement: Inputs
- Close Procurement: Tools and Techniques
- Close Procurement: Outputs

12.5. Close Procurements

- Close Procurements: Inputs
- Close Procurements: Tools and Techniques
- Close Procurements: Outputs

13. Project Stake Holder Management (10 Marks)

13.1. Identify Stakeholders

- Identify Stakeholders: Inputs
- Identify Stakeholders: Tools and Techniques
- Identify Stakeholders: Outputs

13.2. Plan Stakeholder Management

- Plan Stakeholder Management: Inputs
- Plan Stakeholder Management: Tools and Techniques
- Plan Stakeholder Management: Outputs

13.3. Manage Stakeholder Engagement

- Manage Stakeholder Engagement: Inputs
- Manage Stakeholder Engagement: Tools and Techniques
- Manage Stakeholder Engagement: Outputs

13.4. Control Stakeholder Engagement

- Control Stakeholder Engagement: Inputs
- Control Stakeholder Engagement: Tools and Techniques
- Control Stakeholder Engagement: Outputs

APTITUDE TEST (50 Marks)

(a) Numerical And Figurework Tests: (16 Marks)

These tests are reflections of fluency with numbers and calculations. It shows how easily a person can think with numbers. The subject will be given a series of numbers. His/Her task is to see how the numbers go together to form a relationship with each other. He/She has to choose a number which would go next in the series.

(b) Verbal Analysis And Vocabulary Tests: (14 Marks)

These tests measure the degree of comfort and fluency with the English language. These tests will measure how a person will reason with words. The subject will be given questions with alternative answers, that will reflect his/her command of the rule and use of English language.

(c) Visual And Spatial/3-D Ability Tests: (10 Marks)

These tests are used to measure perceptual speed and acuity. The subject will be shown pictures where he/she is asked to identify the odd one out; or which comes next in the sequence or explores how easily he/she can see and turn around objects in space.

(d) Abstract Reasoning Tests: (10 Marks)

This test measures the ability to analyse information and solve problems on a complex, thought based level. It measures a person's ability to quickly identify patterns, logical rules and trends in new data, integrate this information, and apply it to solve problems.
